

Destination weddings

2024 - 2025

When your love for epic travel
adventures and each other
combine

Destination love

This is a big deal. You've decided to celebrate your love at a super special destination and after all the meticulous planning and preparation, you don't want to risk having it documented by someone you don't know or whose work you don't love...

So, take me with you and show me all the reasons you fell in love with your special place.

It's not as extra as it might seem. I'm a pro at hopping on a flight and making sure you get the best experience and a high quality gallery of perfect photos, capturing your wedding exactly as you imagined.

"Absolutely breathtaking. I laughed I cried I laughed some more and I cried some more. Every single photo is absolutely flawless. There's not a single one we don't love and not a moment missed all day!
It's like you've dived into my soul and given me everything I've ever wanted"
Ashleigh & Alex

Just for you

A big win for having a destination photographer is that we can cover as much of your trip as you like. I'm there just for you. Pool parties, pizza night on the terrace, the goodbye brunch and all the moments before, during and after, let's capture it all. I'm an experienced photographer and I've travelled across the world. I've got you.

Planned to perfection

We'll work through everything together. Travel plans, on the day co-ordination, suppliers and details. I'll be across everything and in touch with everyone you've chosen to make your dream day come to life.

All our chats and exchanges will culminate in a site visit ahead of the day. I'll meet your loved ones and in my true style, become another squad member. It's a superpower.

I'm self organising so I take care of all my travel arrangements which gives you one less thing to think about.
